HAS NO CORN-WHEAT.

No Hybrid of the Two Cereals Known to Department.

Inquest Into Burdick Murder - Trade Review-Niagara Falls Almost Dry Canal Bill Goes to the Governor Increased Liquor Tax - Suicide of General MacDonald.

The department of agriculture at Washington has reported that an enor mous number of letters are being received at the department from farmers in all parts of the country asking for definite information concerning a so-called new grain called "corr wheat' and usually at the same time requesting samples for trial.

These letters are the result of wide ly published newspaper reports. The department authorizes the statement that there is no such thing as corn wheat and that it is probable that no bybrid of corn and wheat could ever be produced, or at any rate, one that would be fertile.

The grain which caused the news paper publications is known correctly as Polish wheat. The newspaper reports, the department says, are correct in saying that the heads and grains of this wheat are very large, the grains being in many cases actually twice as large as those of ordinary wheat.

The statement that it yields 60 to 100 bushels is, however, probably considerably exaggerated. The experiments made by the agricultural department and by experiment stations in a few places show that the yield is rather disappointing.

The wheat has been grown only experimentally in this country except in a very few places. From experiments so far made the inference would be that the grain would be very good as a hog food. Polish wheat is much re stricted in its adaptation and the department says could not be successfully grown anywhere east of the Mississippi river.

The department has no seed of the grain in stock.

Burdick Inquest at Buffalo.

Mrs. Burdick finished testifying in the murder inquest at Tuesday's gession. She dealed striking her husband with a chair. She denied that Pennell had executed a bond in her favor for \$50,000 to take care of her if anything happened. Documents were read, showed that he did. Mrs. Burdick admitted that Pennell induced her to oppose Mr. Burdick's action for divorce. She testified that Pennell said he would go West and get a divorce from his wife and marry Mrs. Bur-

Letters written by Mrs. Pennell after the last separation of the Burdicks and pleading with Mr. Burdick to forgive his wife were read in court and caused several women to weep.

At the instance of the president, Admiral Dewey called at the White House Saturday and made a full explanation of a recent newspaper interview in which the admiral was quoted as saying the Caribbean sea manoeu vers were "an object lesson to the kaiser, more than any other person." The admiral assured the president that he had no intention of reflecting in the interview upon Germany, her emperor, or her navy, and that while the statements credited to him were substantially what he said, he neglected to caution the interviewer against quoting him.

Afterward the admiral declined to make any statement for publication. At the White House it was stated raying any emotion. Throughout the that the admiral's explanation was satisfactory to the president. It is not believed that further official notice will be taken of the incident.
